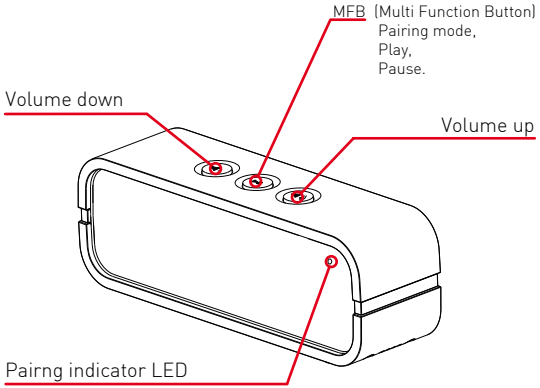
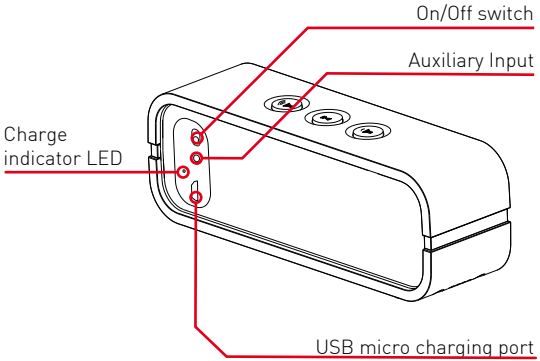
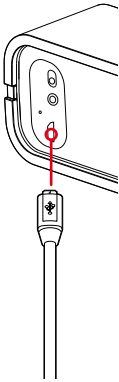
Product overview





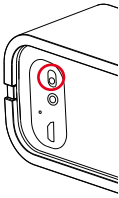
Charge the battery

Use the Micro USB cable provided with the product to charge the battery. Plug it in the connector located on back side of the unit, then plug the other end into a compatible USB charger or a USB port of a computer. The charging indicator LED is steady red while charging or turned off if the battery is fully charged. For a faster charge please remember to power off the unit before charging the battery. The fully charged battery allows up to 8 hours of continuous music playback.



Switch On/Off

- To switch ON, turn the ON/OFF switch to the ON position. The unit prompts five tones and pairing indicator LED blinks.
- To switch OFF, turn the ON/OFF switch to the OFF position.



Pairing and connecting with a Bluetooth device

To enter pairing mode make shure the unit is powered ON then press the MFB key, the unit prompts two tones and the pairing indicator LED blinks. From the Bluetooth function of the device to be paired search for new device named "MINI SPKR". Select it and if requested enter "0000" passcode. When pairing is completed successfully the pairing indicator LED is steady and the unit prompts one tone. If the pairing procedure is not successful, please switch off the unit and repeat the above steps. The specific pairing procedure may vary, so please refer to your device user manual for further information.

Re-connecting with a Bluetooth device

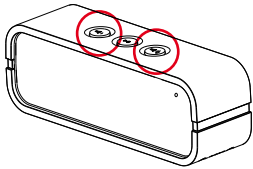
Every time the unit is switched on, it will connect to the last connected device automatically and the unit prompts a tone once is connected.

Disabling the Bluetooth connection

To unpair a Bluetooth device that is already connected, press and hold the MFB key until the pairng indicator LED blinks and the unit prompts a tone.

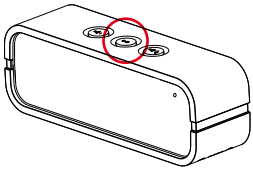
Adjust the Volume

To adjust the unit volume while listening to music press the volume up or down keys.



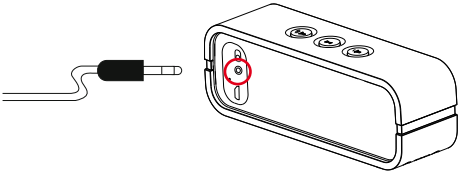
Listen to music

Connect the unit to a compatible music player that supports A2DP profile. To play or pause music from the unit short press MFB key.



Auxiliary input

To connect a device to the auxiliary input use the cable provided with the unit. If a connector is plugged in the auxiliary input the Bluetooth function is automatically disabled. Bluetooth functions is automatically resumed when the connector is removed from the auxiliary input.



Product care

Please remember that your Macrom product is an electronic device, and so needs to be treated with care.

- Do not subject it to mechanical shock or vibrations.
- Do not subject it to eccessive heat.
- Keep it away from water and excessively humid areas.
- Keep it away from high electromagnetic fields.

There are no user-serviceable parts inside. Opening the product or try to repair it will terminate the warranty.
